

Annenberg Public Policy Center of the University of Pennsylvania

ASAPH W29 Glyphosate Items broken out by MAHA Support and Political Party Identification

August 17, 2026

1 Overview

These studies were conducted for the Annenberg Public Policy Center of the University of Pennsylvania via web and telephone by SSRS, an independent research company. Interviews were conducted among a nationally representative probability sample drawn from SSRS's Opinion panel. Data were weighted to represent the target U.S. adult population. Summaries of the sample size, field dates, and estimated design effects (Deff) of the particular waves can be found in the table below.

ASAPH panelists are quarantined from other survey panel membership to avoid being affected by the content of other surveys. Data used in Wave 11, however, contains 19 respondents who self-reported membership in other opinion panels. Diagnostics revealed no significant differences in the responses of these 19 panelists and the results presented in this report are unaffected by their exclusion.

Wave	n	MOE	Deff	Fielded	Closed	Survey	RR	N
a-1	1941	2.9	1.76	2021-03-30	2021-04-19	ASAPH 1	56%	3480

* To account for attrition, a small replenishment sample was recruited prior to W21 using a random probability sampling design. This replenishment added 360 respondents to the sample.

2 Topline

The remaining portion of this document provides the topline results reported in the release. All figures are rounded to the nearest whole number and may not add to 100%. Combined subcategories may not add to totals in topline and text due to rounding. A lowercase e stands in for values that round to 0, but are not exactly 0. Aggregated NET categories are highlighted in grey.

Superscript letters indicate statistically significant differences between subgroups of MAHA support or subgroups of political party identification.

2.1 MAHA support

MAHA4 was asked at the very end of the main survey (before the demographics).

MAHA4.

Do you consider yourself a supporter of the Make America Healthy Again (MAHA) movement?

Wave	N	Yes	No	Not sure	Refused
(C) 04/28/26	1639	26	40	33	e

2.2 Political Party Identification/Leaning

Political party identification items were asked at the end of the survey with other demographics.

Two items determine party identification/leaning:

- Do you consider yourself... a Democrat, a Republican, an independent, a supporter of some other party, or none of these? (randomly ordered Democrat and Republican)
- Do you think of yourself as closer to the Democratic Party or the Republican Party? (randomly ordered Democratic and Republican; explicit “Neither” option; asked of everyone who did not choose Democrat or Republican above)

Those categorized as Democrat either chose “Democrat” or “closer to the Democratic Party.” Those categorized as Republican either chose “Republican” or “closer to the Republican Party.” Everyone else was categorized as Independent/Other, except those who refused or said don’t know to the second question.

PIDLEAN.

Wave	N	Republican	Democrat	Independent Other None
(C) 04/28/26	1639	38	43	19

2.3 Glyphosate

This section started with: “Glyphosate is the chemical found in the weed killer Roundup.”

MAHAP9A.

MAHAP9A. The following is a list of policies and positions related to health and wellness. For each one, please indicate whether you favor, oppose, or neither favor nor oppose it. – Banning the use of glyphosate, the chemical in the weed killer Roundup, on crops grown in the U.S.

Wave	N	NET Oppose	Strongly oppose	Somewhat oppose	NET Favor	Somewhat favor	Strongly favor	Neither favor nor oppose	Not sure	Refused
