Annenberg Public Policy Center of the University of Pennsylvania

ASAPH W31 Alcohol Items

October 19, 2026

1 Overview

These studies were conducted for the Annenberg Public Policy Center of the University of Pennsylvania via web and telephone by SSRS, an independent research company. Interviews were conducted among a nationally representative probability sample drawn from SSRS's Opinion panel. Data were weighted to represent the target U.S. adult population. Summaries of the sample size, field dates, and estimated design effects (Deff) of the particular waves can be found in the table below.

ASAPH panelists are quarantined from other survey panel membership to avoid being affected by the content of other surveys. Data used in Wave 11, however, contains 19 respondents who self-reported membership in other opinion panels. Diagnostics revealed no significant differences in the responses of these 19 panelists and the results presented in this report are unaffected by their exclusion.

Wave	n	MOE	Deff	Fielded	Closed	Survey	RR	N
a-1	1941	2.9	1.76	2021-03-30	2021-04-19	ASAPH 1	56%	3480
b-2	1719	3.2	1.83	2021-06-09	2021-06-22	ASAPH 2	89%	1941
c-3	1669	3.2	1.83	2021-08-16	2021-09-05	ASAPH 3	86%	1940

* To account for attrition, a small replenishment sample was recruited prior to W21 using a random probability sampling design. This replenishment added 360 respondents to the sample.
** To account for attrition, a small replenishment sample was recruited prior to W30 using a random probability sampling design. This replenishment added 328 respondents to the sample.

2 Topline

The remaining portion of this document provides the topline results reported in the release. All figures are rounded to the nearest whole number and may not add to 100%. Combined subcategories may not add to totals in topline and text due to rounding. A lowercase e stands in for values that round to 0, but are not exactly 0. Aggregated NET categories are highlighted in grey. Superscript letters indicate statistically significant differences with the corresponding wave.

Notes.

ALCOHOL1.

ALCOHOL1. As far as you know, does regularly consuming alcohol (increase), (decrease), or have no effect on your chances of later developing cancer, or are you not sure?

Wave	N	Increase your chances of later developing cancer	Decrease your chances of later developing cancer	Have no effect on your chances of later developing cancer	Not sure	Refused
(E) 10/05/26	1842	58^{uB}	1	17	24^{uB}	e
(B) 02/17/26	1650	53^{uE}	2	16	29^{uE}	0
(w) 02/10/25	1716	56^{u}	2^{u}	16^{u}	26^{u}	e
(u) 09/30/24	1744	40^{wBE}	1^{w}	20^{w}	40^{wBE}	0
